

HARRISONS GARDENWORLD

2026 DECIDUOUS CATALOGUE ORNAMENTALS AND FRUIT

Welcome to our Deciduous Ornamental Tree, Shrub and Fruit Tree Catalogue.

We are pleased to offer a sensational selection of high quality deciduous trees/shrubs and fruit trees. This year **Large Grade** trees are also available – please enquire at the garden centre for further information.

Deciduous plants provide interest in the garden throughout the year and are suitable for every garden - large or small. In the case of fruit trees there is also the added enjoyment of eating your own home-grown produce.

All of the trees and shrubs we supply are backed by our exclusive *Plant Performance GUARANTEE*.

Enclosed is our order form please note, it is advisable to order early as many varieties are in limited supply. All deciduous ornamental and fruit tree/shrub orders will be confirmed on a first in, first served basis.

If you are unable to find a particular plant in the catalogue, please do not hesitate to request it. Our plant finding service is very efficient!

Please feel free to seek our recommendations on the best choice of deciduous tree/shrub or fruit tree for your garden. We have an experienced team who are only too happy to help.

All orders placed are eligible for inclusion on your Harrison's Advantage Card.

Happy Gardening from your Team at Harrison's!

Plant Performance[™] **GUARANTEE**

If within 12 months any plant purchased
from Harrison's fails to perform to your expectation
Please return it with proof of purchase.
We will happily replace it with any equivalent plant
to the same value.

PLANTING HINTS

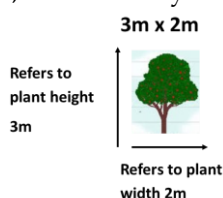

1. **SELECT YOUR SITE** - Suitable for the tree you have chosen.
2. **SITE PREPARATION** - Dig a hole large enough for the roots to be spread out without distortion and deep enough for the tree to be planted at the same depth as it has been in the Nursery. Add Ican Slow Food with the soil at the bottom of the hole and halfway when back filling the hole. This will provide up to 2 years continuous feeding. Prune back any damaged roots to sound wood.
3. **STAKING** - Insert a stake slightly off centre in the bottom of the hole and drive it in until secure. This will normally be 30-45cm (12-18in). Place the tree or the shrub in the centre of the hole, locating the stem 2.5cm (1in) from the stake, ensuring that the stake reaches only to the lowest branch. Ensure that the top of the stake does not interfere with the crown of the tree or shrub and adjust the height of the stake where necessary either by driving it deeper or by cutting off the top.
4. **PLANTING** - Spread the roots of the tree or shrub laterally and backfill with soil. Firm soil carefully to exclude air pockets, taking care not to damage the roots.
5. **PROTECTING THE TREE** - Where stems may be damaged by animals or machines, place a plastic tree guard around the stem or around the stem and stake. Secure the tree or shrub to the stake, using a tree-tie attached to the top of the stake no more than 2.5cm (1in) from the top. Additional ties may be necessary to stop the stem rubbing on the stake.
6. **PRUNING** - After having carried out steps 1 to 5 the most important phase of the tree's survival begins. Prune at least one third from the tree and always prune branches to an outside bud. The logic of pruning is simply that the roots have been cut, so a balance between branches and roots must be achieved to minimise stress on the plants.
7. **Never** plant your tree when ground conditions are not suitable, i.e. too wet - as this, along with the firming of the soil around the roots, forces the air from the soil and may cause root disease.

**Having carried out these seven steps - sit back and watch
your investment grow!**

OTHER TREE PLANTING ESSENTIALS

Ican Slow Food - 24 Month	500gm	14.99

ORNAMENTALS

ACER - JAPANESE MAPLES

Maples have an appeal for their various features; finely cut foliage, incredible autumn colour. In general terms, most Maples prefer reasonably sheltered positions with good free draining soils with a high organic content. Dappled shade is ideal for many, and while maples are very frost hardy, they detest hot, dry, windy situations.

	Grade	Price
<p>Acer rubrum Autumn Glory A popular fast growing tree with large five lobed leaves dark green throughout the summer and in autumn the tree has a spectacular late season fiery red orange display making it ideal for street planting and large gardens. 8x6m.</p>	1.8m	89.99
<p>Acer p. Bloodgood Small rounded tree with deep red foliage throughout the summer. Autumn foliage is brilliant crimson. Requires some shelter. 4x3m.</p>	1.5m	89.99

WEeping JAPANESE MAPLES		
Acer p. dissectum Crimson Queen A small spreading weeping form with scarlet-red stems. Retains leaf colour throughout the summer, turning fiery scarlet in autumn. 1x1m.	1m std 40/60cm Topiary	89.99 89.99
Acer Esk Flamingo A very spectacular Maple. Its prime show is in summer and autumn when the leaves are mottled with spectacular pinks and creams. Graceful weeping habit. 3m.	1.2m	89.99
Acer d. Tamukeyama Deep reddish purple foliage with a growth habit that is vigorous. 1.5x2m.	1m std	89.99
Acer p. dissectum Viridis New fresh, soft green spring foliage. Dissected leaves delicately lace-like turn lime-green in summer. Spectacular autumn tones of fiery gold and orange. Soft mounding habit. 1x1m.	1m std 40/60 cm Topiary	89.99 89.99
AESCULUS - HORSE CHESTNUT		
Aesculus carnea 'Briotii' Red Horse Chestnut. Excellent option for smaller gardens with rich green leaves, creating a lush canopy that provides excellent shade. Flowers are deep pink to crimson spikes that appear in spring. 5x4m.	.75m	89.99
ALBIZIA - SILK TREE		
Grown for their filigree foliage and attractive flower heads of small florets with long stamens which may be borne on plants only a few years old.		
Albizia julibrissin Rosea Good for a hot dry position, known for its umbrella canopy of rich green dainty fern like leaves, fluffy brushes of pink flowers during the height of summer. 5x4m.	120/150	74.99
Albizia julibrissin Red Silk Selected form of the Silk Tree bearing a profusion of carmine-red silky flowers. 5x4m	1m	74.99

ALNUS-ALDERS

Extremely fast growing tree, good for shelter. They will grow anywhere (except right on the coast) and are particularly good in wet boggy areas.

	Grade	Price
Alnus cordata – Italian Alder A splendid medium to large conical tree, very hardy. Will stand a wide range of conditions. Bright green glistening foliage. 10x5m.	1.5m	69.99

BETULA-BIRCHES

A very well-known and popular tree, most are noted for attractive bark and autumn colours. Male and female catkins are borne on the same tree. Most birches accept exposed situations and are very cold hardy. Moist but well drained soils are preferred while poorer soils are tolerated. Plant them as isolated specimens or in a small group.

Betula Jacquemontii Dazzler A stunning specimen tree. This is a superior selection with amazing snow-white bark. Larger green leaves than its parent. Turns a brilliant gold in Autumn. Very effective in avenues or groups. Hardy. 3x8m.	1.8m	99.99
---	------	-------

Betula Utilis Jacquemontii This form of the 'Himalayan Birch' has been selected for its very white bark. An attractive medium sized tree from West Nepal. 8x5m.	2m	99.99
---	----	-------

Betula pendula Easy to grow. Graceful birch, smooth grey-white bark and delicate, green lacy foliage. Looks great planted in a group. 7x6 in 10 years.	2m	79.99
--	----	-------

Betula White Spire Like the famous Betula Utilis 'Silver Shadow' but with a more vigorous and upright fastigiated habit. Strikingly white trunk at an early age. 8x4m.	1.8m	99.99
--	------	-------

CALYCANTHUS

Calycanthus Hartlage Wine Hybrid between Chinese and American species with large wine red flowers from late spring to mid-summer. Needs at least half a day full sun and cool roots. Trim after flowering. 2m	.5m	69.99
---	-----	-------

CERCIS - REDBUDS AND JUDAS TREE

Cercis feature a brilliant 'show' of massed flowers during spring. Very attractive in a small garden as a single specimen or most attractive when used in mass display in large properties or parks. A versatile tree, some species are suitable for street planting.

Cercis canadensis Forest Pansy One of the most striking and sought after smaller trees. Leaves develop from deep wine red through deep purple in spring aging to deep bronzy green in summer. Takes on a spectacular blaze of reds in autumn. Pale, rose pink, pea shaped spring flowers. Very hardy and wind tolerant. 3x3m.	1m	89.99
---	----	-------

CORNUS - DOGWOODS

The 'Dogwoods' - large shrubs or small trees, the majority being from 2-3m high. They provide year round interest with beautiful showy flower bracts, distinctive oval vertically curved leaves, some with red berries. Rich autumn foliage and handsome stems.

	Grade	Price
<p>Cornus alba elegantissima A very hardy red stemmed Dogwood. Broad green-grey leaves with white margins. Cream flowers in early summer. Creates a magnificent display when mass planted. Cold hardy, easy to grow. 2x1.5m.</p>	.3m	44.99
<p>Cornus Eddies White Wonder For many gardeners, this is the pick of the Dogwoods. Large white showy flower bracts in spring and fantastic red and orange autumn colour. 4x3m.</p>	1.5m	89.99
<p>Cornus florida Cherokee Chief New Spring growth is deep bronzy red, turning deep green through summer followed by scarlet and wine red in autumn. 3x3m.</p>	.5m	89.99
<p>Cornus florida Cherokee Sunset Green leaves with a lemon yellow margin. Large rosy-red blooms, bronze, pink foliage in spring with autumn tones of pink, red and purple. 3m.</p>	.5m	89.99
<p>Cornus Kousa China Girl Selected for prolific flowering with large creamy white bracts. This tree is a popular, hardy small tree with a vase like shape. Stunning autumn foliage. 4x3m.</p>	.5m	89.99
<p>Cornus Stokes Pink Masses of deep pink flower bracts appear in spring followed by red strawberry fruits that birds love. The green summer foliage colours well prior to leaf fall. 4x3m.</p>	.5m	89.99
<p>Cornus Stolon Flavirmea The summer foliage is dark green and colours well in autumn. The late spring flowers are white. Hardy and easy to grow. Great for decorative floral work. 2.5x1m.</p>	.3m	49.99
<p>Cornus controversa Variegata - Wedding Cake Tree A very ornamental small tree with picturesque horizontal branches in tiers, with striking silver margined leaves. 6x4m.</p>	.5m	99.99
<p>COTINUS Cotinus coggygria 'Velvet Cloak' Leaves are deep red purple with colour retained well into autumn, eventually emerge from the red stems, turning smokey grey by late summer. 3x3m.</p>	.3m	59.99
<p>EDGEWORTHIA Grandiflora Yellow Daphne - An interesting shrub from China known for its intense fragrant, large bright yellow tubular flower cluster that bloom on bare stems in winter and early spring. 1.5x1.5m.</p>	.3m	69.99
<p>FORSYTHIA Karl Sax A strong growing very free flowering hybrid with large deep canary yellow blossom. One of the earliest winter bloomers. 2m.</p>	.3m	44.99
<p>FRAXINUS The 'Ashes' - Hardy, fast growing trees, thriving in almost any soils. Will tolerate wind-swept, coastal and polluted conditions, so this makes them ideal for specimen, shade, screens and Avenue or Street plantings.</p>		

	Grade	Price
Fraxinus Ornus This lovely tree has a compact growth habit and produces a profusion of fluffy, scented white flowers in the spring. 8x5m.	1.8m	74.99

GINKGO MAIDENHAIR TREE

The 'Maidenhair' Tree – sole living survivors of an ancient family whose ancestors occurred in many parts of the world about 160 million years ago. Medium to large trees easily recognised by their fan shaped undivided leaves that turn a beautiful clear yellow in autumn.

Ginkgo biloba Jade Butterflies Dwarf vase shaped Ginkgo with clumps of dark green leaves that look similar to a butterfly's wings. Wonderful butter yellow foliage in autumn. 3x2m.	1m	74.99
---	----	-------

LIQUIDAMBAR - SWEET GUMS

Handsome trees with maple like leaves. One of the finest trees for autumn colour with moderate growth rate, good form, picturesque branch pattern and corky bark. Intense autumn colour.

Liquidambar styraciflua Gumball A special dwarf form that grows into a round ball. Vibrant autumn colours that last well into winter. 2x2m.	90cm 1.2mstd	145.00 145.00
---	-----------------	------------------

Liquidambar styraciflua Lane Roberts A selected clone from England and most reliable for its rich black crimson-red colour in autumn. Smooth fine bark. Upright conical form. 8x5m.	1.5m	89.99
---	------	-------

Liquidambar styraciflua - American Fruit Gum Forms a stately pyramidal tree with well spaced branches and rugged corky bark. Handsome shining dark green maple-like leaves changing in autumn to shades of red, orange, yellow and purple. 8x5m.	1.5m	89.99
--	------	-------

Liquidambar Worplesdon Upright pyramidal form with outer branches gracefully drooping. Finely cut leaves give a brilliant display of yellow, orange and scarlet. 8x5m.	1.5m	89.99
--	------	-------

MAGNOLIA

They are the most magnificent of flowering trees. Flowers are showy, solitary, and some are fragrant cup, goblet or star shaped, they appear before the leaves. Magnolias require a sheltered spot with fertile, humus rich, well drained soils that are moisture retentive.

Magnolia Atlas A Felix Jury hybrid and probably the largest magnolia flower in the world – blooms up to 35cm across and petals 15cm wide in lilac pink. Spectacular but needs good shelter. 8x4m.	1m	89.99
---	----	-------

Magnolia Black Tulip A smaller growing compact tree with magnificent, goblet-shaped blooms in a stunning red black. Note that the flowers may not be true to form, and customers should be advised that it can take a year or two to settle in. A wonderful tree for a garden situation. 3.5x2.5m.	1.5m	99.99
--	------	-------

Magnolia Cleopatra A popular compact hybrid which was bred in New Zealand known for its vibrant dense purple flowers that bloom early spring often with a second in summer. 4x4m.	1m	89.99
---	----	-------

	Grade	Price
<p>Magnolia David Clulow Goblet shaped white scented blooms. Reported to be one of the best white magnolias. Upright tree 4m.</p>	1m	89.99
<p>Magnolia Denudata - The Lily Tree This rounded tree is covered with fragrant pure white cup-shaped flowers in early spring. 5x4m.</p>	1m	89.99
<p>Magnolia Emperor Magnolia Emperor is another beauty, bred by NZ Breeder Revered Vance Hooper, and a true monarch of the magnolia world. Dark pink flowers that grow to an impressive 30cm diameter in spring to a second round flowering in summer. Moist free draining soil in full to half day sun. 5x3.5m.</p>	1m	74.99
<p>Magnolia Felix Jury Enormous, superb flowers open red and turn rosy, pink. A spectacular sight in early spring when the compact tree will be covered in hundreds of blooms. The flowers have the added bonus of being highly fragrant. 5x3m.</p>	1.5m	99.99
<p>Magnolia denudate Gere Late flowering selection of the species. Pure white flowers on small to medium sized upright tree. 4m.</p>	1.5m	89.99
<p>Magnolia Heaven Scent Upright grower with upright pastel lavender-pink blooms, toned more softly towards the tips with white interiors. Unique colour, strongly fragrant. 4x2.5m.</p>	1m	89.99
<p>Magnolia Honey Tulip Another drop dead gorgeous hybrid from the Jury breeding programme. Large, fragrant goblet shaped blooms in a soft shade of honey yellow. The flowers appear early spring on bare branches. Plant in a sheltered position in acid soil for best results. 6x4m.</p>	1.5m	99.99
<p>Magnolia Iolanthe From early spring very large bowl shaped rose-pink blooms appear with a creamy white interior. A magnificent variety. 4x5m.</p>	1m	89.99
<p>Magnolia Koban Dori Beautiful fragrant and compact tree with yellow blooms, flowers which appear with foliage. Pyramidal growth reaching 4-5m over 10 years making it a excellent choice for smaller gardens 4x2.5m.</p>	.75m	89.99
<p>Magnolia Liliflora Nigra Slender pansy-black curved buds opening to dark maroon-purple, lighter purplish-pink interiors. Flowers through spring and summer. 2x1.5m.</p>	.75m	89.99
<p>Magnolia Old Port Blooms are a very dark wine-purple with the inner surfaces off white. Cup shaped 12cm blooms have a light fruity fragrance. Multi-branched. 3-4m.</p>	1m	89.99
<p>Magnolia Red As A smaller growing specimen that flowers heavily at a young age. Glorious goblet-shaped darkish purpley-red flowers. 2.5-3m.</p>	.75m	89.99

	Grade	Price
<p>Magnolia Sentry A hardy, small, deciduous tree. Pink, purple flowers are tulip shaped and scented. Very narrow columnar growth, so ideal for small gardens or an area where you want height in the garden but not a spreading habit. Prefers moist, fertile soil which is free draining and a position in the garden which gets sun for at least half the day. 3.5x1m.</p>	1m	89.99
<p>Magnolia Stellata 'Royal Star' Produces masses of large, icy white starry flowers. Stronger growing than M. stellata. 2.5x2.5m.</p>	.5m	89.99
<p>Magnolia Summer Magic Summer Magic has been bred by Vance Hooper in Taranaki and is described as the having elegant narrow healthy foliage and is almost willow like when it's not in flower. These trees have been admired for their foliage alone when not in flower. Magnolia Summer Magic is the best summer flowering Magnolia that we've seen and can be expected to grow quite slender and tall. 4x1.8m.</p>	1m	74.99
<p>Magnolia Vulcan The best of the best! Arguably the most stunning Magnolia bred to date. Opulent, deep magenta blooms up to 25cm across. A good sized compact tree, suitable for smaller gardens. May take two or three years for the flowers to develop true size and colour. 6x4m.</p>	1m	89.99 99.99
<p>MALUS - ORNAMENTAL CRAB APPLES The Crab Apples – Very free flowering with cascades of blooms. They are extremely hardy and are suited to a wide range of soils and climatic conditions. Most are small to medium growing, so are well suited to the smaller garden. The usual flowering time for Crab Apples is September to October and covers 5-6 weeks.</p>		
<p>Malus coronaria Charlottae Large leaves which colour rich in the autumn. Flowers large, semi-double shell pink. Green fruits. 2.5x2m.</p>	1.5m	89.99
<p>Malus Gorgeous Very popular Crab Apple. Small deep crimson fruits weigh down the branches in autumn and winter. An excellent culinary variety. Pearly white blossoms in spring. One of the best fruiting crab apple. 2.5x2m.</p>	1.5m	79.99
<p>Malus Ioensis Plena - Betchels Crab Beautiful large double flowers, pink buds open to palest pink blossoms. Very fine autumn tones of orange and red. 3x2m.</p>	1m 1.5m std	79.99 89.99
<p>Malus Red Jade Gracefully cascading branches covered in autumn with small round brilliant red fruit. Excellent fruiting dwarf weeping tree. 2x2m.</p>	1.7m std	99.99
<p>Malus Tschonoskii Malus Tschonoskii is a beautiful, pyramidal grower with spring leaves that have a silver-white, felted appearance. 6x4m.</p>	1m	79.99
<p>Malus Wandin Glory Develops into an excellent tree with an umbrella head and dense green foliage. Masses of spring blossom, followed by a good crop of full sized highly coloured sweet apples. 3x2m.</p>	1.5m	89.99

	Grade	Price
Malus Wright's Scarlet A spectacular fruiting crabapple with large, crimson-red fruit in autumn. White blossoms in spring. Forms a spreading canopy of branches. Yellow autumn leaves. 4x3m.	1.2m	79.99

NYSSA

Grown for their attractive foliage and brilliant autumn colour, they are ideal as specimen trees or in group plantings and are particularly effective near water.

Nyssa sinensis - Chinese Tupelo Large shrub or small tree. The young growth is red throughout the growing season, with leaves changing to every shade of red in autumn. A magnificent tree. 5x3m.	1.2m	79.99
---	------	-------

Nyssa sylvatica Spectacular autumn foliage, vivid shade of scarlet and orange. Hardy and withstands wet soil. 6x4m.	1.2m	79.99
---	------	-------

PHILADELPHUS - MOCK ORANGE

Commonly known as Mock Orange the Philadelphus are highly valued for beautiful white or cream highly fragrant flowers produced in early summer after many other spring blossom shrubs have faded. Prune each year after flowering.

Philadelphus Frosty Morn Masses of fragrant double white flowers appear in the late spring on this narrow upright bush. An excellent variety for small garden. 1.5x1m.	.3m	49.99
--	-----	-------

Philadelphus Virginal An excellent medium sized shrub. Semi-double, pure white, highly scented blooms are produced in clusters. 2m.	.3m	44.99
---	-----	-------

POPULUS - POPLAR

Crow's Nest A fast growing, narrowly columnar deciduous tree. Bright yellow Autumn colour is stunning. Replaces the old rust susceptible Lombardy poplar. Excellent shelterbelt, screen or erosion control tree. 20x3m.	2m	39.99
---	----	-------

Kawa Vibrant yellow foliage in autumn. Resistant to both possum damage and rust. Height after 5 years is 7m Maturity 30m.	2m	39.99
---	----	-------

PRUNUS

The 'Blossom' time of the year is a favourite for many gardeners. The glorious range of colours and blooms are delightful, from a single white to the double red, pinks and mauves. They vary enormously from small to huge magnificent trees. They are generally very hardy. The flowering season begins in early spring and finishes late October.

PRUNUS - FLOWERING CHERRIES

Prunus yedoensis Awanui Masses of pale shell pink large single blossoms in mid spring. The horizontal branches make an excellent shade tree. 6x6m.	1.5m std	89.99
--	----------	-------

Prunus campanulata Felix Jury A special selection producing large very deep claret red blossoms in early spring. Very popular with Tui's and Wax eyes. Upright habit. 5x3m.	1.5m std	89.99
---	----------	-------

	Grade	Price
<p>Prunus Hilleri Spire Prunus x hillieri 'Spire' has a densely branched, narrow, upright form with smaller leaves. Its green leaves turn red and orange in autumn, and it becomes a cloud of dainty, white to soft-pink blossoms in early-spring. Prunus x hillieri 'Spire' is great for narrow spaces and lining driveways, and it makes an excellent street tree. 6x2m.</p>	1.5m	89.99
<p>Prunus Jim's Delight A small vase - shaped tree with a slight spreading habit, a small, single pink flowers in Spring. In Autumn leaves turn orange yellow red. 3x2m, in 10 yrs.</p>	1.2m	89.99
<p>Prunus serrulata Shimidsu Sakura Large semi double flowers, pink in bud, opening palest pink, fading to pure snow white. 4x5m.</p>	1.5m std 1.8m std	89.99 99.99
<p>Prunus serrulata Shirotae - Mt Fuji A very beautiful Cherry. Large single semi-double snow white flowers bursting from the soft young green foliage in long drooping clusters. A vigorous tree with wide spreading branches. 4x5m.</p>	1.5m std	89.99
FLOWERING WEEPING CHERRIES		
<p>Prunus subhirtella Falling Snow A pale pink form suitable for warmer areas. Slender arching gracefully pendant branches clothed in pearly-white blossom mid-spring. 2.5x2m.</p>	1.2m std	99.99
<p>Prunus subhirtella Pendula Rosea The weeping Rosebud Cherry of Japan. Slender arching and gracefully pendant branches. Dainty single pink blossom. 2.5x2m.</p>	1.2m	99.99
<p>Prunus Kiku-Shidare Sakura Beautiful Spring display of bright rose-pink fully double frilled flowers in dense clusters on steeply pendulous branches which weep gracefully to the ground. 2.5x2m.</p>	1.5m std	99.99
PYRUS - ORNAMENTAL PEAR		
A diverse range of trees with highly ornamental foliage, excellent shape and prolific bloom. Very hardy, they like full sun and are tolerant to air pollution, drought and coastal conditions. Adaptable to most soils and are excellent as street and avenue trees. Very ornamental.		
<p>Pyrus betulifolia Autumn Leaves Graceful, slender smaller tree with weeping branches. Attractive shimmering leaves with excellent autumn colourings. Ideal specimen tree and also for lining driveways. 4x3m</p>	1.5m std 1.8m std	99.99 99.99
<p>Pyrus Bradford A selected, non thorny form. It forms a vigorous, medium sized, dense headed tree flowering profusely in late spring. Attractive autumn foliage in shades of orange through to scarlet red. Highly praised as an ornamental and commonly planted as a street tree. 6x4m.</p>	1.5m	99.99
<p>Pyrus Kea A smaller-growing, multi-branched tree with a dense, bushy growth habit. Glossy, green leaves turn to a blend of burgundy and green over summer. This colouring intensifies to red through autumn. Tolerates both dry and heavier wet soils. White spring flowers. 5x4m.</p>	1.5m	99.99

	Grade	Price
Pyrus salicifolia Pendula - Weeping Silver Pear A graceful, slender weeping tree with elegant silvery grey willow-like leaves and clusters of creamy white blooms. 2x2m.	1.5m std	99.99

Pyrus Slim Jim A medium size slender growing tree ideal for the smaller garden, avenue and street planting. A profusion of white blooms is produced on leafless branches in spring, followed by glossy green leaves all summer, turning to a blaze of reds and yellows in autumn. 7x1m.	1.5m	89.99
---	------	-------

QUERCUS - OAKS

The 'Oaks' - Hardy trees, most suitable for avenues, parks, golf courses, farms and other spacious areas. Many reach noble proportions and live to a great age. They are hardy and reasonably fast growing. They possess large or attractively cut leaves and most give rich autumn tints.

Quercus Palustris - Pin Oak Handsome glossy dark green leaves turning scarlet, yellow and bronze in autumn. Requires moist acid soils, withstands wet conditions. 10x8m.	2m	89.99
--	----	-------

ROBINIA

Characterized by their attractive, pinnate leaves, often spiny stems and pendulous racemes of pea flowers. All are hardy and suitable for any ordinary soil, being especially useful in dry sunny situations. All species are tolerant of atmospheric pollution.

Robinia Mop Top Produces a ball of fresh thornless, green lustrous foliage 2-3m in diameter. A natural topiarised tree, maintaining a round headed shape. Hardy to both extreme heat and cold. 3x3m.	1.8m	99.99
--	------	-------

SALIX WILLOWS

Salix Vitellina Aurea Twisti (Golden Twisti Willow). A magnificent tree when given room to develop. Twisted branches with beautiful yellow foliage. Grows 4m. Full sun with rich moist well drained soil.	2m	69.99
---	----	-------

Salix caprea Kilmarnock - 1.7m Standard Forms a small umbrella like tree with slender, stiffly pendulous branches. From winter to early spring each branch is studded with large tan buds opening white. Cut stems are excellent for floral work. 2x2m.	1.7m std	99.99
---	----------	-------

SYRINGA - LILACS

Excellent background shrubs grown for their large panicles of scented flowers in late spring. Prune after flowering and lime annually. Will grow in sun or semi-shade.

Syringa Persica Alba White persian lilac, delightful, fragrant. Delicious panicles of white single blooms. Plant in sun to light shade in deeply worked soil. 2.5x1.5m.	.25m	74.99
---	------	-------

ULMUS - ELMS

The 'Elms' - One of the hardiest deciduous trees thriving in almost any type of soil and in exposed conditions. The golden and variegated forms are colourful trees in the landscape while the weeping forms are picturesque and useful for the shade they give. There is a restriction of Elm movement in the Auckland area.

	Grade	Price
<p>Ulmus Frontier Bred from <i>Ulmus carpinifolia</i> & <i>Ulmus parvifolia</i>. A small size tree which shows disease and insect resistance. Beautiful red-purple autumn leaf colour. Desirable street, park, landscape or highway tree. 12x8m.</p>	2m	89.99
<p>Ulmus glabra lutescens - Golden Elm A very lovely specimen and shade tree with golden yellow foliage right through spring and autumn. It is fairly wind tolerant and will stand heavy pruning in winter. 6x6m.</p>	1.5m	99.99
<p>Ulmus glabra Pendula - Weeping Elm A very popular lawn specimen as it quickly forms a beautiful natural umbrella. Chartreuse green winged seeds. 3x3m.</p>	2m std	125.00
<p>VIBURNUM Mostly have white flowers, some very fragrant, in flat heads or round corymbs, often followed by brightly coloured fruits. Several varieties give rich autumn colour. With few exceptions, most are hardy and will tolerate most soils, preferring heavy rich, free draining loam, sun or partial shade. Prune for good shape.</p>		
<p>Viburnum opulus sterile - Japanese Snowball Tree Masses of white balls in mid-summer. A very hardy tree. Best planted in full sun. 2x2m.</p>	.5m	49.99
<p>WISTERIA Superbly beautiful, long lived, twining, woody vines with pendulous flowers. There are perhaps no more beautiful climbers when draped with their multitude of long racemes of pea flowers in white, pink or mauve. Plant in full sun.</p>		
<p>Wisteria Amethyst A selection of the Chinese Wisteria that flowers early before the leaves only 2-3 years after planting. Medium length racemes, dark mauve, with a beautiful strong fragrance.</p>	1m	49.99
<p>Wisteria Blue Sapphire Strong growing climber with an abundance of mauve or deep lilac flowers in racemes 20-30cm long before the leaves. Can be trained effectively as a standard.</p>	1m	49.99
<p>Wisteria Snow Showers A Japanese Wisteria with long dainty racemes of pure white flowers. A vigorous grower with lime-green foliage, flowering in October. Hardy.</p>	1m	49.99
<p>Wisteria White Silk Large pure white highly fragrant flowers borne in compact racemes. 10-15cm long. A showy climber that will flower quite young. Hardy.</p>	1m	49.99

FRUIT

	Grade	Price
ALMOND		
All in One		
Sweet flavourful with a soft shell. Heavy and reliable cropper. Maturing in February. Self fertile. 4.5m.		69.99
APPLE - DWARF M26 (2.5-3.5m height)		
Classic selection of apples which taste so much better when tree ripened from the home garden.		
Adorable		
Very high health fruit tree well suited to home gardens. Large, bicoloured, red streaked on yellow fruit, which is sweet, slightly tangy and fragrant. 3-3.5m.		59.99

<p>Granny Smith Rich green skin with a distinctively sprightly flavour. Matures in April. 2-3m.</p>		74.99
<p>Monty's Surprise Very old apple. Crisp with good eating and cooking properties. Its high levels of flavinoids and other beneficial compounds may inhibit the growth of cancer cells. Over 50% of these compounds reside in the skin, so eat them skin and all. Matures April. 2-3m.</p>		74.99
<p>Pacific Rose The Pacific Rose Apple is beautifully distinctive, pink to red colour, superb crunch & juicy flesh. It is a mostly sweet apple with very little tartness. 2-3m.</p>		74.99
<p>Polka (Columnar apple M116) Columnar apple producing beautiful red blushed fruit mid-season. Crisp, juicy and flavourful. M116 rootstock for medium size and heavy soils. Stake while young for support. 3-4m.</p>		59.99
<p>Royal Gala Creamy, fine textured, crisp, sweet and juicy flesh. Regarded as one of the world's finest apples. Matures in February. 2-3m.</p>		74.99
<p>Scarlet Spire (Columnar apple M116) The 'Scarlet Spire' is a popular, highly compact, columnar apple tree, ideal for small gardens and containers. It features bright red, crisp, and slightly tangy fruit that ripens in autumn. 3x3m.</p>		59.99
<p>Sweetie Sweetie is a cross between Braeburn and Gala that ripens just before Royal Gala. Has a sweet flavour without the tartness of Braeburn, skin has a green-yellow colour that has a red blush and juicy cream-white flesh. 3-4m.</p>		59.99

	Grade	Price
Waltz (Columnar apple M116) Large fruit, green maturing to red in sunny positions. Crisp and tangy, great fresh as well as drying and cooking. Medium freestanding rootstock tolerates heavy soils, stake while young. 3-4m.		59.99
DUAL APPLES		
Dual 'Braeburn/Royal Gala	3m	99.99
Dual 'Royal Gala/Granny Smith	3m	99.99
Dual 'Royal Gala/Pacific Rose	3m	99.99
APRICOT		
Clutha Gold A medium to large fruit with sweet, juicy melting flesh that ripen in mid-January. Fruit are ideal for eating fresh and preserving. Will produce heavier crops when pollinated by another variety of apricot such as Moorpark or Sundrop. 3-3.5m.		74.99
Moorpark Large, freestone golden yellow fruit. Juicy and sweet deep orange flesh. Maturity mid to late summer. 4-6m.		74.99
Solar Perfection An exciting, early fruiting apricot with strong orange colour and good size. Fruit has fine texture and juicy flesh of excellent eating quality. Great crops from an early age. Low chill requirement – suitable for warmer climates. Self fertile. Grows approximately 3x3m.		74.99
Sundrop Lovely yellow skin with very good flavour if tree ripened. Matures at Christmas. Fairly reliable cropper may need thinning. 3-4m. Pollinator: Trevatt.		74.99
Tomcot Unique, sweet, juicy, intense flavour. Maturity February. Golden orange, rich red blush skin. Consistent heavy crops. Flowers abundantly. Self fertile. 3-3.5m.		74.99
CHERRIES		
Cherries in the home garden provide beautiful spring flowers, delicious early fruit and spectacular autumn foliage. Cherry trees will grow in a wide range of soil types, provided the soil is deep and well drained. Cherries do not like heavy pruning, so once they are established, give them a light prune in early summer or early autumn.		
Grumpy neutral Dwarf Produces heavy crops of bright red fruit with a sharp flavour that makes them ideal for culinary purposes and for juicing. Deciduous, hardy and self-fertile. 4x3m.		59.99
Compact Stella A good home variety, producing heavy crops of dark red skinned fruit on mature trees. Fruit matures around Christmas. Grows to around 3m. Self fertile.		59.99

	Grade	Price
CHESTNUTS		
No. 1005	1.5m	79.99
Medium sized nuts are produced early to mid-season. Self fertile. 10m.		
FIG		
The fig is an unusual spreading deciduous tree. Some varieties can bear two crops a year – early summer and late autumn. Its flowers are hidden on the inside of a pear-shaped, fleshy receptacle which becomes the fruit. Figs do not require cross-pollinating. The fruit forms on the tips of the previous season’s growth. Best results can be achieved when grown in a restricted situation. Rich soil and plenty of fertilizer only results in lanky growth and no fruit.		
Brown Turkey	.75m	59.99
Green skin and light amber flesh, maturing in March-April. Good for drying and jam. Heavy producer. 3-3.5m.		
French Sugar	.75m	59.99
Green skin and sweet red flesh, maturing over a long season. 3-3.5m.		
Mrs Williams	.75m	59.99
Amber to red sweet flesh with dark red skin. Late February maturity. Reliable cropper. 3-3.5m.		
Sweet Black	.75m	59.99
Dark skin, pink flesh, creamy texture. So sweet, eat it skin and all. Ripens March – early April. Reliable. Good for marginal areas that may experience cooler summer. 3-3.5m.		
GRAPES		
One of the delights of home gardens is to be able to walk into your own backyard and snack on a fruit directly off the vine. Juicy grapes are filled with flavour waiting to tempt your taste buds. Grapes grow where they receive full sun and good air circulation. Train them over a pergola or trellis, along a fence line or around a patio or verandah.		
TABLE GRAPES	1m	59.99
Albany Surprise		
Large fruit with jet black skin, maturing in March. A vigorous cropper.		
Black Dalmation	1m	59.99
Large, black, disease resistant grape with outstanding flavour. Great as a dessert grape or for making wine. Ripe March/early April.		
Moore’s Diamond	1m	59.99
White flesh and skin. Maturity Mid-March. Hardy. Resistant to fungal attacks. Good quality.		
New York Muscat	1m	59.99
New York Muscat is a highly regarded, aromatic, and sweet table grape in New Zealand, featuring medium to large, reddish blue to black, seeded berries. Ideal for home gardens and pergolas, this hardy, vigorous, and disease-resistant deciduous vine ripens in February-March.		
Niagara	1m	59.99
Very sweet with thin skin and low seed content. Matures early.		

	Grade	Price
<p>Schuyler Jet black fruit with great flavour. Medium sized bunches, maturing in February. Regular heavy cropper.</p>	1m	59.99
<p>Robinson A tasty table grape that produces large bunches of purple-black grapes. A reliable heavy cropper with the fruit being ready to harvest in March and April. Requires a sunny position where soil is moist but free draining.</p>	1m	59.99
<p>HAZELNUTS Barcelona High quality large nut with good flavour. Has a good heavy crop in March. Pollinator: Merveille de Bolwillier. 4x3m.</p>	.5m	59.99
<p>Ennis Good eating variety for home garden. Large nuts. Maturity March. Less vigorous tree but very productive. Pollinator: Merveille de Bolwillier. 4x3m.</p>	.5m	59.99
<p>Merveille de Bolwillier Grown by layering. Produces a few large nuts. Mainly used as a pollinator. 4x3m.</p>	.5m	59.99
<p>Whiteheart Smaller nuts, suitable processing. High crack out. Cropping reliable. Nuts mature in March. Pollinator: Merveille de Bolwillier. 4x3m.</p>	.5m	59.99
<p>NASHI Hosui Excellent eating, sweet, juicy with good acid balance and fine texture. Large russeted golden brown fruit. Partially self fertile. Mid-season, fruit will ripen slightly earlier than Nijiseiki. When tree is young it is vigorous, growing slows down when tree is mature. 4x3m.</p>		69.99
<p>Nashi Reddy Robin Looks and tastes like an apple, with the skin and texture of a pear. Very sweet and juicy. Also known as a Papple. Healthy, delicious fruit to snack on. Fruit ready to harvest from late-summer to early-autumn. Partially self-fertile, but better crops when planted with another Nashi pear variety. 4x3m.</p>		59.99
<p>NECTARINE Early Red 2 Very early to fruit. Yellow flesh and red blushed skin. Good balance of sweet and tart flavour. Freestone. Good eating and fruit size. Vigorous. 4-5m.</p>		74.99
<p>Goldmine Green skin, flushed red with sweet white flesh, maturing in February. A reliable cropper with vigorous upright growth habit. 3x3m. Self fertile.</p>		74.99
<p>Snow Queen Delicious creamy-white firm flesh with deep red skin. Great eating. Early, large and freestone. Self fertile. 3-3.5x3m.</p>		74.99

	Grade	Price
<p>Tasty Gold A fairly recent introduction this Nectarine has large freestone fruit with a mainly red skin. The yellow flesh has an excellent texture and taste. The fruit will hold well on the tree after ripening for up to 14 days. Plant in a sunny well drained position. Self fertile. 5x3m.</p>		74.99
<p>NECTARINE DWARF Flavourzee A dwarf nectarine with mid-season yellow fleshed fruit of good size and eating quality. Forms a compact bushy habit. Self fertile but best with another nectarine or peach in the vicinity. 2m.</p>	70cm std	79.99
<p>Garden Delight Large juicy freestone fruit with red skin and yellow flesh. Self fertile. 2m.</p>	70cm std	79.99
<p>PEACH Black Boy A freestone variety with red-black skin and port-wine, sweet and juicy flesh. Ripens in March and shows resistance to leaf curl. 3-4x3m.</p>		79.99
<p>Golden Queen A clingstone variety with golden skin and great flavour. A reliable cropper, used extensively for bottling. Ripens in March. 3-4x3m.</p>		74.99
<p>Hiawatha Leaves are a wonderful shade of purple. Pink flowers. Fruit is purple skinned with orange flesh, tasting great but a smaller fruit than other peaches. Less prone to curly leaf. 4x3m</p>		74.99
<p>Peachcot Flavour very sweet and tasty. Firm texture. Golden yellow skin. Maturity March. Heavy cropper. Cross between Peach and Apricot. 3-4m.</p>		74.99
<p>Sweet Perfection An exciting new disease resistant selection with an abundance of dark skinned yellow flesh juicy fruit every season. 3m.</p>		69.99
<p>Tasty Zee Matures late January. Medium size. Attractive pinkish red mottle over greenish yellow skin. Slight sub acid melting flavour. 3x3m.</p>		74.99
<p>PEACH - DWARF Bonanza Medium sized white fleshed with a red blush. Delicious, sweet flavour. Early summer. Dwarfing variety growing to 1.5m. Medium cropping. Freestone.</p>	70cm std	79.99
<p>Honey Babe Medium sized fruit, with deep red skin with a hint of yellow. Sweet & firm. Freestone. December/January. 1.5-2m.</p>	70cm std	79.99
<p>Pixzee Large freestone fruit with an excellent flavour. Highly coloured peaches. Late January maturity. Beautiful pink spring blossom. Regular and heavy cropper. A charming little tree with long bright green leaves. December/January. 2m.</p>	70cm std	79.99

	Grade	Price
PEACHERINE		
Healeys Gold, fuzzless skin with red blush, beautiful flavour and is a clingstone variety. Ripens in late January and is a regular cropper. 3-4m.		74.99
PEAR		
Pears will provide a reliable source of fruit for the home garden. They are at their best if picked from the tree slightly 'under ripe' held in the fridge for a week or two and then taken out and allowed to ripen before eating. When ripe the flesh becomes smooth. Most pears need cross pollination, the planting of more than one variety is recommended.		
Belle du Jumet Very sweet sugar pear, green skin, crisp white flesh. Maturity late January. Medium to heavy cropper. Self fertile but assisted by other pears. 3-3m.		74.99
Beurre Bosc Sweet dessert quality. Large fruit with russet skin. Maturity mid-season. Medium to heavy cropper. Self fertile but assisted by other pears. 3-3.5m.		74.99
Conference Sweet and juicy. Green skin with some russeting. Maturity February. Regular heavy cropper. Partially self-fertile. Pollinate with Packhams Triumph. 3-3m.		59.99
Doyenne du Comice Classic gourmet pear. Green skin flushed red with white, melting juicy flesh. Tastes like sweetened cinnamon. Mid to late season. Pollinate: WBC or Winter Nelis. 2-3m.		74.99
Garden Wonder A naturally smaller growing pear with sweet fruit with smooth, melting texture that both eats & stores well. Forms an attractive trees ideal smaller gardens. Mid-season. 3x2m.		59.99
Packham Triumph Super all-purpose variety. Large fruit in mid-season and a good keeper. Heavy and reliable bearer. 2-3m. Pollinators: WBC.		74.99
Taylors Gold Russeted Comice pear with sensational flavour. Later ripening. Pollinators: WBC, Winter Cole or Winter Nelis. 3-4m.		74.99
Williams Bon Chretien Smooth greenish-yellow skin with sweet flavour. Ripens in February and is a regular cropper. 3-4m. Pollinators: Winter Nellis or Conference.		74.99
Dual Packhams Triumph/Winter Nelis		125.00
Dual William bon Chretien/Beurre Bosc		125.00
PLUM		
Most plums need cross pollination. The planting of pollinator is required for fruiting.		
Black Doris Black skin and dark red flesh, ripening in late January. Culinary and dessert. A heavy cropper, 3-4m. Pollinators: Billington, Santa Rosa.		74.99

Coes Golden Drop	74.99
Sweet tasting with yellow skin and flesh. Late season ripening. Pollinate with Greengage. 3-4m	
Damson	74.99
Small with blue-black skin and fairly tart green-yellow flesh, ripening in late January. Heavy crops that are wonderful for jam. 3-4m. Self-fertile .	
Hawera	74.99
Dark red skin with sweet and juicy dark red flesh, ripening in January. Possibly the best blood red plum. 3-4m. Pollinator: Santa Rosa, however, appears to be self-fertile in many locations.	
Hunterston	59.99
Huge crops of reddish skin fruit with apricot coloured flesh eat beautifully through mid-summer. Very attractive & high health tree. Ideal home gardens. Self fertile . 4-3m.	
Luisa	74.99
Mid to late Jan-Feb variety. It produces large, oval, yellow skinned fruits with a reddish blush. An excellent eating variety relatively easy to grow. Self fertile . 3-4m.	
Santa Rosa	74.99
Pinkish skin, fairly sweet yellow flesh, ripening at Christmas. A reliable heavy cropper. 3-4m. Pollinators: Omega, Duffs Early Jewel.	
PRUNE	
Stanley	74.99
Firm texture with a good, sweet flavour. Pick when ripe in February. Bears heavy crops at an early age. Self fertile . 3-4m.	
QUINCE	
Quinces have a delightful fragrance and a rich full flavour will develop if the fruit is left on the tree until mature. The fruit hangs on the tree well into the season. The quince is excellent preserved and the flesh becomes a beautiful dark red when cooked. Quinces make one of the best jelly conserves. The tree is a very hardy, thrives and bears well almost anywhere. Quinces are self-fertile.	
Smyrna	69.99
Yellow smooth skin, excellent quality fruit which are tender and sweet when cooked. Ripening mid-April. A heavy cropper at a very young age. 4-6m. Self fertile . 3-3.5m.	
Taihape	69.99
Tender and sweet when cooked. Excellent quality. Mid-April maturity. Yellow and smooth. Self-fertile . Healthy and disease resistant. 3-3.5m.
